

Borderline: Intellect/Symbols -> Silence (nikhil_tikekar@hotmail.com)

Present moment without symbols, **empty** of notions, divisions

Present moment without symbols, neither real, nor illusory

Symbols that are assumption of objective world - **idea** of real

Symbols that declare dreaming, hallucination - **idea** of illusory

Present moment without symbols, neither occupied, nor void

Symbols that identify forms- **idea** of content in moment

Symbols that imply their absence - **idea** of emptiness

Present moment without symbols, neither in space, nor time

Symbols that fence matter relative to the rest- **idea** of space

Symbols that point to before or after present - **idea** of time

Present moment without symbols, neither 'is', nor 'is not'

Symbols that mean awake, dream, world, self, time- **idea** of 'is'

Symbols that mean sleep, pre-birth, post death - **idea** of 'is not'

Present moment without symbols, evident neither to a self, nor to else

Symbols that say "I am alive/awake/dreaming/conscious" - **idea** of a self

Symbols that say brain/space/absolute/universe is witness - **idea** of else

Present moment without symbols, neither has free will, nor no free will

Symbols that believe symbols emerge from free self - **idea** of free will

Symbols that convince symbols are natural events - **idea** of no free will

Present moment **with** symbols, manifestation of omnipotence silence veils

(Symbol - movement in the moment that stands for something else = its meaning.

They appear as read/braille, heard, written, spoken, **overwhelmingly** as thoughts)
